

Position: Digital Design Workshop GSI

Instructor: Kim Suczynski-Smith

ENV DES 9: embARC Summer Design Academy

Program Dates: July 6-31, 2020

embARC is an intensive four-week summer design and planning course for rising high school juniors and seniors. The program allows students to explore the fields of environmental design and experience the culture of a college-level design/planning studio. The program will culminate in a final design review, where students will exhibit, present, and discuss their work with CED faculty, graduate students and alumni.

The Dean's Office is seeking a GSI to assist in leading the *Digital Design Workshop*. In the Digital Design Workshop, students will learn computer 3D modeling and rendering software, in addition to getting a chance to use the Digital Fabrication Shop to work on their own projects.

The position is open to continuing graduate students who are in the Department of Landscape Architecture or Architecture, particularly those who have taught a course in representation. Applicants should have experience with the Digital Fabrication Shop and ability to lead tutorials in Rhino, Adobe (InDesign, Illustrator, Photoshop), and Rendering software (V-Ray, etc.).

All qualified applicants who are being considered for the positions must successfully complete a background check. The GSI position compensation will include one week of curriculum development with instructor prior to the start of the academy.

Training and preparation dates will be determined prior to the end of the spring semester. GSIs will commit to the four week program from July 6-31, 2020. Additional obligations include office hours one evening a week.

Please send a cover letter, CV and portfolio to Kim Suczynski Smith - ksuczynski@berkeley.edu.
